Dear Parents,

Hello! We have quite a bit to cover this week in class. Our goal is to finish strong before Spring Break.

As it was previously mentioned in a past newsletter, your child is at the point in the year in which we are going to begin building on his or her knowledge and boost it to the next level. We have been speaking in class about being ready for 3rd grade and what that will take.

In order to do this though, students will be required to work through tough problem solving and application of knowledge. Some concepts will not come easy and that is ok :) I ask that you join me in encouraging your child to put in his or her best effort even when things get hard

July 13 - 17th

Imaginations will soar this summer in the all-new Camp Invention® program, Elevate! Campers in grades K-6 will

spark their creativity and build collaboration skills while controlling their very own flight simulation robot, protecting Earth's ecosystems, designing the ultimate sports complex and learning the value of their ideas! Local educators will lead fun, hands-on STEM activities inspiring children to ask questions, overcome obstacles and be confident in their innovative ideas. Visit invent.org/camp or call 800-968-4332 to register. Use promo code SUM25 to save \$25 (expires 3/31) or SUM15 to save \$15 (expires 5/12).

Yearbook information was sent home a few weeks ago. The cost is \$15.00. Online orders can be placed at ybpay.lifetouch.com ID code - 12596720 Checks can be made out to Lifetouch. Orders are due March 13th.

Have a great week!
